

TIN SOLDERING DAYS THING OF PAST UNDER NEW REGIME

Men Who Attended Camp at Las Vegas Found That They Were There to Learn to Fire, Hike and Keep Clean

WAR PROBLEMS ARE WORKED OUT DAILY

With the arrival of Company C last night and the departure of a short time ago, the men of the 1st Regiment of Infantry, U. S. A., 4th, the regiment at Las Vegas are having a thing of the past. The men selected to complete the national rifle shoot at Camp Perry, which is to take place in the range until late in August, but they will have their rifle practice at Las Vegas and will immediately place new rifles on the range in the line of small arms experts.

Col. Robert F. Smith and Lieut. Myron G. Brooke of this city are members of the team. Colonel Smith is still in Las Vegas. Lieutenant Brooke returned last night with his company and will put in two weeks of hard work on the local range before returning to Las Vegas.

Company C went to Las Vegas with forty-eight men and two officers. There was one case of illness in the company and it was immediately contracted prior to the departure for camp. Private Boland was stricken with a malignant form of rheumatism and was confined to the field hospital during the entire camp. He was brought home on a stretcher in charge of the medical corps from this city and was removed to his home. The other men were in excellent condition.

The medical corps from Albuquerque did splendid work and it was largely due to the efficiency of the members under the direction of the medical officers, that the camp was kept so free from disease.

The first time the National Guardmen found upon arrival in camp this year was that the days of the tin soldier, dress parade and sham battle were a thing of the past.

From the tin soldier, the regiment went into camp until the "scuffle" was sounded, both officers and men worked and worked hard. It was not camp work either that they did, but work in the field in the rain, in the open, by day and by night, fording streams, climbing mountains, throwing up entrenchments and generally performing the work of a soldier in the field with an enemy in the vicinity.

The government did not send us here to play, it sent us here to work," said General A. S. Brookes, the camp commander and adjutant general of the territory. His orders were carried out.

The field work and the school for officers were under the direct supervision of Lieut. Young, Twenty-third Infantry, U. S. A., sent by the war department for this purpose.

Problems were outlined each day for the commands sent into the field and they were worked out in a practical way by officers and men. The commands focusing the maneuvering field, was mapped and each officer was provided with a map by which he directed his operations. Unless he was able to read his map and fit it to the country, he was traveling, he could not carry out the orders he received from time to time in the field.

Briefly outlined, the work given this year was just such a program as would have been adopted to hurriedly prepare volunteers for immediate service in the field and against an enemy. Where it was necessary to indicate the positions of the troops, blank cartridges were fired out where it was possible to distinguish with them they were not used. The idea was purely to educate the officers to move troops in the field and the men to occupy the positions assigned to them, some under cover, some advantage of the ground and the work they were directed to do.

Some of the maneuvers extended over large areas and necessitated considerable hiking so that the men came into camp each night, ready to eat, sleep and rest. Passes through the lines were few and the discipline of the troops, individually, broke all records for an unbroken march of the men in this territory.

While the problems assigned in the field were being worked out, a situation of lines and an effort made to simulate a sham battle, other than the natural movement of the commands, a situation of the battle was highly spectacular and a series of attacks from the mountains in many places. This was particularly true in the attack and capture of a small town known as "Brazo," when a command of "Brazo" troops successfully attacked and drove out a command of "Red" Infantry occupying the place. This problem

was worked out along the lines of the future fight and even to the point of the battle of the future. The men were in a state of readiness and the men were in a state of readiness and the men were in a state of readiness.

DOMINGO INDIANS HAVE CORN DANCE NEXT FRIDAY

Many Automobile and Train Parties Been Arranged to Take in Festivities at Village 40 Miles Away.

The Domingo Indians of Santa Domingo will have their annual dance on Friday, August 4, and a number of Albuquerque people have arranged to attend the celebration. Santa Domingo is a small village, about 40 miles from Albuquerque, and the Indians have a reputation for being a wild and lawless people. The dance is a religious ceremony, and the Indians are dressed in their traditional costumes. The dance is held in a large open field, and the Indians are surrounded by a large crowd of people. The dance is a very interesting sight, and it is well worth a visit to Santa Domingo to see it.

The Markets

KANSAS WHEAT IS SHORT THIS YEAR

An Estimate That It Would Run About Fifteen Million Bushels Below Last Season Affects Market Quickly.

Chicago, July 31.—An estimate that the total wheat yield of Kansas amounted to only 45 million bushels, against previous harvests of 60 to 70 million bushels, had a bullish effect on the market here. There were unfavorable crop reports from the northwest and from Kansas and India. The wheat market here was bullish, and the price of wheat advanced to 90 to 90 1/2 cents per bushel. The price of wheat advanced to 90 to 90 1/2 cents per bushel.

INSURRECTOS LOSE
CUSTOMS JOBS

Forty Rebel Soldiers Summarily Dismissed From Service By Madero at Juarez and Trouble is Likely.

El Paso, Texas, July 31.—Forty rebels of the Juarez custom house who were appointed from the ranks of the insurgents were discharged today by order of Francisco Madero in a telegram from Mexico City, and former federal employees, whose places they had taken were reinstated, effective tomorrow. The action has caused much dissatisfaction among the former insurgent soldiers, who threaten trouble when the rebels are put in the line.

Mexican Miners on Strike.
Mexico City, July 31.—Striking miners at El Oro are reported closing today, actuated by an anti-foreign policy, and a manifesto demanding that foreigners leave the town.

A special train is carrying three American women from the place. The federal government has been asked to send troops to the scene.

WHAT'S THE USE OF LOOKING LIKE A "RAG."
Who and look like those cool, clean, always-presentable women who look with you? Those happy women—and there are hundreds of them in Albuquerque—don't pay any more for their hair than you do for your hair. We'll be glad to tell you all about cutting with ease.
